EDUCATION

Bachelor of Technology in Computer Science(Artificial Intelligence)

Bennett University

August 2022 – Present

Greater Noida, UP

EXPERIENCE

App Development Lead

January 2024 – December 2024

Syntalix

Kolkata, WB

- Accomplished the development of mobile applications to bring Syntalix's services to users' fingertips, increasing accessibility and user engagement by 50%, by leading the development using Flutter and Dart.
- Strengthened team productivity and collaboration, resulting in a 30% increase in development efficiency, by adopting agile methodologies and using tools like Slack and Trello.

Chief Technical Officer

March 2023 – January 2024

Syntalix

Kolkata, WB

- Accomplished a user-friendly and visually appealing website, resulting in a 50% increase in user engagement and a rise in inquiries, by developing the overall design and coordinating a team of frontend and backend developers.
- Updated service offerings visibility, leading to a 45% rise in consulting service requests, by creating the Syntalix Consulting Services (SCS) section.
- Ensured high performance and seamless integration, achieving a 25% reduction in website load times, by leading the development team and overseeing the implementation of advanced features.

PROJECTS

Harmonix | Flutter,Dart

November 2024 – December 2024

- Engineered a Flutter app delivering both music and video content, achieving 92% operational efficiency on Android devices.
- Designed three distinct interfaces—a secure login portal, personalized account hub, and a comprehensive media dashboard thereby reducing onboarding duration by 28% and enhancing user interaction by 35%.
- Refined the visual experience with a striking gradient theme and custom media controls, resulting in a 25% increase in overall user retention.
- [Harmonix](#).

Bail Reckoner | Next.js,Django,Python,Llama 3.1

August 2024 – September 2024

- Developed 80% of the frontend interface, including a responsive, role-based system and 90% of key UI components like interactive forms, data visualizations, and real-time updates for better user experience..
- Assisted in backend development by creating 30% of FastAPI endpoints, enabling seamless data retrieval, processing, and communication between the frontend and AI-driven legal database.
- Contributed to integrating 50% of real-time legal database access and AI-driven precedent matching, allowing for automated case law retrieval and improved decision-making accuracy.
- [Bail Reckoner](#)
